Passcode: 516590

Mariner Skills and RightShip invite you to join an important webinar addressing the ongoing risks associated with unsafe enclosed space entries and the practical steps needed to prevent injuries and fatalities. This session will highlight lessons learned from real incidents, reinforce safe procedures, and support stronger safety practices across maritime operations.

We are proud to present this webinar in partnership with RightShip, whose leadership continues to create a meaningful impact on global safety standards. We're grateful for this collaboration and hope you'll join us (virtually, that is) for this informative and timely session.
